

# THE REGULATION (EU) 2018/848

- Council and European Parliament Regulation
- Linked to other Council and European Parliament Regulations
- Linked to Commission Regulations
- Since the publication in June 2018, it has been amended and it has been complemented

That's why, since 1/1/2022, it's more complicated to understand it than before

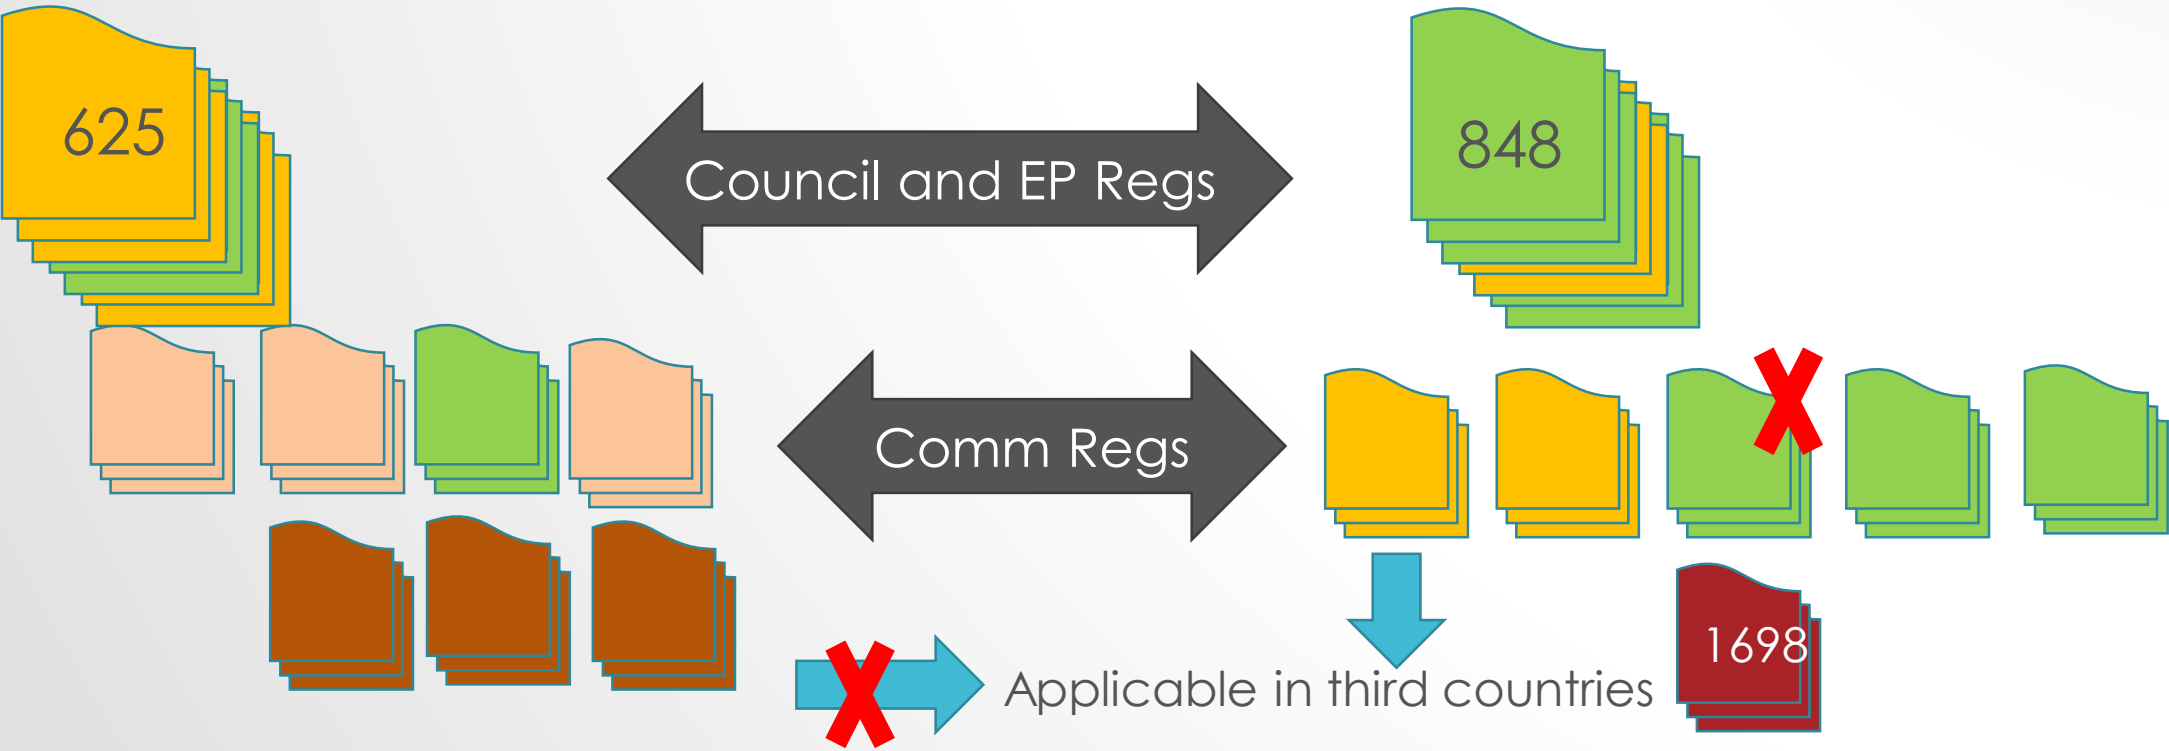

Regulation (EU) 2017/625 as regards official controls lays down the basis of the control system for organic production and contains 1 article specifically dedicated to organic controls of organic production

Regulation (EU) 2018/848 as regards organic production continues with « specific rules » for controls and certification of organic production and contains articles about production and labelling of organic products

# CONCLUSIONS

- The existence of a Regulation:
  - Ensures **harmonised application** of the organic production standards
    - among EU Member states and
    - outside of the EU in view of import into the EU
  - Generates a **legal basis** for labelling and advertisement in the interest or protecting consumers and operators
  - Allows for plenty of other **supporting programs**
    - Farming (CAP)
    - EU Action plan for organic production
    - Rural development
  - Contributed in an important way to the development of organic production in the EU
